### ENTERPRISE-LEVEL SUCCESS

Partner with a team that has a proven record of enterprise success

## Clinical workflow reimaged...

**Hill-Rom's Clinical Workflow Solutions** are designed for the new reality of acute patient care. With the right combination of innovative technology, clinical and technical expertise, and ongoing support, your team can continue to grow and evolve into a high-performing organization, structured for sustainable success.

### Products and Technologies

Hill-Rom's NaviCare® platform provides the infrastructure for our full suite of solutions and integrates seamlessly with EMRs, most wireless devices, ADT systems, smart beds, and real-time locating systems. Developed with insights from caregivers, Hill-Rom's products and technologies focus on improving productivity, safety, and the overall patient experience.

### Specialists

Our experienced Account Executives, Solution Specialists, Project Managers, and Clinical Outcomes Managers partner with your team to tailor a solution for your current and future needs. From planning to implementation to training, we provide essential support to help you achieve and maintain performance improvement.

### Methodology and Support

Hill-Rom's methodology facilitates rapid solution configuration, installation, and rollout with minimal disruption or start-up time. With dedicated IT resources located across the country, we provide outstanding technical support, 24/7 remote monitoring, and rapid response. To further assure you that we meet your clinical workflow needs, Hill-Rom offers consultative services, change management facilitation, site assessments, workflow design, customized reporting, and training.
